

# ATMIS

INDIVIDUAL CAMOUFLAGE

## Crinkle 3D - Sniper Patrol

### Modular Concealment for Tactical Precision

The ATMIS Sniper Patrol Cloak from Wescom Defence is a modular, multispectral concealment garment designed for specialist units for both static and mobile use, it delivers high performance signature reduction while allowing full tactical mobility.

With reversible multispectral protection and the ability to interconnect with other units, the ATMIS Sniper Patrol Cloak supports both individual use and team concealment. It offers comprehensive coverage for personnel and equipment while remaining lightweight, compact, and easy to deploy in dynamic environments.

### KEY FEATURES & PERFORMANCE BENEFITS

-  **Modular Field Concealment**  
Worn as a poncho and linkable to other units via toggles and eyelets to form larger camouflaged systems.
-  **Multispectral Protection**  
Reduces detection across UV, Visual, Thermal, Near IR, and SWIR spectra.
-  **Operator Focused Design**  
Covers weapons and equipment while allowing fast access; ideal for snipers, F.A.C.s, and recon teams.
-  **Reversible & Lightweight**  
Fully reversible construction and ultra-lightweight (1.5kg) for ease of movement and deployment.
-  **Versatile Field Utility**  
Doubles as a one-man observation post or static hide, offering adaptable concealment in varied mission profiles.
-  **Compact & Deployable**  
Packs into a small 15 x 15 x 15cm unit, ideal for rapid deployment and transport.

## MULTISPECTRAL SIGNATURE MANAGEMENT

Designed to suppress signatures across the visible and invisible spectrum, including UV, VIS, TIR, NIR, and SWIR, providing advanced concealment in both movement and static roles.

## BEYOND THE VISIBLE

Designed for modern battlefield conditions, the ATMIS Sniper Patrol Cloak helps operators remain undetected by advanced sensor systems through full spectrum signature reduction, compact mobility, and scalable coverage.

### APPLICATIONS

- + Reconnaissance & Observation Posts
- + Sniper Teams & Forward Air Controllers (F.A.C.s)
- + Long Range Patrols & Covert Infiltration
- + One Man Observation Posts
- + Modular Camouflage Systems for Tactical Units

## SPECIFICATIONS

Property	Detail
Format	Full-body cloak / poncho
Material	ATMIS Crinkle 3D camouflage fabric
Camouflage Spectra	UV / VIS / TIR / NIR / SWIR
Dimensions (Flat)	1.5m x 3.0m
Dimensions (Packed)	15 x 15 x 15 cm (approx.)
Weight	1.5 kg
Colours	Reversible (e.g. Woodland / Snow)
Connectivity	Toggle/eyelet system for linking

## PERFORMANCE STANDARDS

Refer to the ATMIS Crinkle 3D Technical Datasheet for full compliance and testing data.
